

Sports Condition Guide

Grading Overview

Bikes & (e)Bikes

AA

- Essentially unused condition. No scratches, paint defects, or optical defects on the frame, visible at any distance. Add-on parts, crank and chain unused, original factory condition.
 - Battery capacity (when applicable e.g., e-bikes) 95% or higher.
 - Works like new. Cleaned. Fulfills all legal requirements.
-

A

- Not more than light scratches on the frame, small paint defects, small optical defects on the frame. No defects visible from 1m away.
 - Add-on parts, crank and chain (like) new.
 - Battery capacity 90% or higher.
 - Works like New.
 - Cleaned.
 - Fulfills all legal requirements.
-

B

- Visible scratches on the frame, paint defects, optical defects on the frame. No defects visible from 2m away.
 - Add-on parts, crank and chain new or minimal wear.
 - Wear and corrosion minimized by good maintenance.
 - Battery capacity (when applicable e.g., e-bikes) 80% or higher.
 - Works like new. Cleaned. Fulfills all legal requirements.
-

C

- Clearly visible scratches on the frame, paint defects, optical defects on the frame.
 - Add-on parts, crank and chain show signs of use.
 - Wear and corrosion minimized by good maintenance.
 - Battery capacity (when applicable e.g., e-bikes) 80% or higher.
 - Works like new. Cleaned. Fulfills all legal requirements.
-

Sports Condition Guide

Grading Overview

Gym Equipment – Cardio Equipment (Treadmills, Indoor Bikes, Cross trainers, etc.)

AA

- **Electronic Functionality:** Essentially unused condition. Screen, buttons, and console show no signs of use whatsoever.
 - **Moving Parts:** Folding mechanisms and adjustable parts operate as if unused, with no resistance whatsoever.
 - **Maintenance:** Oiling and lubrication points in original, factory-fresh state with no maintenance needed.
 - **Battery capacity** at 95% or higher. Works like new. Cleaned. Fulfills all legal requirements.
-

A

- **Electronic Functionality:** Fully operational electronics (screen, buttons, console). All features work as new, with no signs of wear on electronics or buttons.
 - **Moving Parts:** Smooth operation of folding mechanisms and adjustable parts. All moving parts operate smoothly without resistance. No issues with folding or adjustments.
 - **Maintenance:** Proper oiling and maintenance points functioning correctly. Oiling or lubrication spots are clearly visible, functioning, and maintained regularly.
 - **Battery capacity** at 80% or higher. Works like new. Cleaned. Fulfills all legal requirements.
-

B

- **Electronic Functionality:** Some minor button or screen lag or visible wear but fully functional.
 - **Moving Parts:** Slight resistance in foldable or adjustable components. Some slight difficulty in folding or adjusting but does not affect functionality.
 - **Maintenance:** Oiling points functional but might need maintenance. Maintenance needed but minor issue; oiling and lubrication needed.
 - **Battery capacity** at 80% or higher. Works like new. Cleaned. Fulfills all legal requirements.
-

Sports Condition Guide

Grading Overview

Gym Equipment – Cardio Equipment (Treadmills, Indoor Bikes, Crosstrainers, etc.)

C

- **Electronic Functionality:** Clearly visible wear, scratches, or inconsistent responsiveness on screen or buttons. Must remain fully functional; non-functioning or partially working electronics are not eligible for any grade.
 - **Moving Parts:** Folding or adjustable components may require extra effort or show visible wear. Must still fold, adjust, and lock properly; parts that fail to function or lock are not eligible for any grade.
 - **Maintenance:** Visible signs of light surface rust or wear on oiling/maintenance points. Mechanism must remain fully operational; components requiring repair before use are not eligible for any grade.
 - **Battery capacity at 80% or higher.** Works like new. Cleaned. Fulfills all legal requirements.
-

Sports Condition Guide

Grading Overview

Strenght Equipment (Weight Machines, Benches, etc.)

AA

- **Mechanical Condition:** Cables, weights, and components in essentially unused condition, with no wear or resistance whatsoever.
 - **Structural Integrity:** Frame and components in factory-fresh condition, with no signs of damage, cracks, or cosmetic wear of any kind.
 - **Adjustable Components:** Lock securely and operate as smoothly as new, with no signs of prior adjustment use.
-

A

- **Mechanical Condition:** All parts in perfect working order (cables, weights, etc.). No wear on cables or weight plates; they move smoothly without resistance.
 - **Structural Integrity:** Strong, intact frame with no signs of damage. No cracks, dents, or damage on the frame. Components align and operate securely.
 - **Adjustable Components:** Easy to adjust with no issue locking into place. Seat height, backrests, and other adjustable lock securely and operate smoothly.
-

B

- **Mechanical Condition:** Minor wear on cables, weight plates, or components. Small signs of wear or resistance but does not affect functionality.
 - **Structural Integrity:** Frame in generally good condition but minor cosmetic damage. Minor scratches or chips in the frame, no impact on performance.
 - **Adjustable Components:** Minor difficulty in adjusting components, may require some extra force. Must still lock securely into place; components that fail to lock are not eligible for any grade.
-

C

- **Mechanical Condition:** Clearly visible wear on cables, weights, or moving parts. Must move and function correctly; non-functioning or unusable moving parts or cables are not eligible for any grade.
 - **Structural Integrity:** Clearly visible cosmetic damage to the frame, such as scratches, dents, or chipped paint. Frame must remain structurally sound and safe to use; unsafe or unusable frames are not eligible for any grade.
 - **Adjustable Components:** Visible wear or stiffness in seat adjustments or backrests. Must still lock and move correctly; components that are broken, stuck, or require repair to use safely are not eligible for any grade.
-

Sports Condition Guide

Grading Overview

Accessories (Dumbbells, Kettlebells, Mats, etc.)

AA	• Condition: Essentially unused. Mats, ropes, kettlebells, and dumbbells show no visible wear or damage of any kind, even at close distance. • Grip: Grips and non-slip surfaces in original, factory-fresh condition with no signs of use. • Functionality: Fully functional with no defects whatsoever, as if unused.
A	• Condition: No visible wear or damage. Items like mats, ropes, kettlebells, and dumbbells are in excellent condition with no damage or signs of wear. • Grip: All accessories have intact and secure grips or non-slip surfaces. Grips are comfortable, secure, and show no signs of wear or degradation. • Functionality: All items work as expected with no defects. Fully functional with no issues with the weights or surfaces.
B	• Condition: Minor scratches or surface wear on mats or accessories. Items show some minor surface damage but still usable. • Grip: Grips or non-slip surfaces slightly worn but still functional. Some wear on grips, but the item remains functional. • Functionality: Minor issues like slight imbalance in dumbbells or kettlebells. Minor defect that doesn't impact usability, such as slightly imbalanced weights or slight degradation in surface.
C	• Condition: Clearly visible wear and tear, including cosmetic tears, cracks, or surface damage. Must not affect functionality or safety; items with damage affecting functionality are not eligible for any grade. • Grip: Grips or non-slip surfaces show clear signs of wear. Must remain secure and functional; broken or non-functional grips are not eligible for any grade. • Functionality: Must be fully functional and safe to use. Items with imbalance, missing parts, or safety issues (such as sharp edges) are not eligible for any grade.

Sports Condition Guide

Grading Overview

Winter Sport Equipment

AA	• Equipment essentially unused; sole and edges in factory-fresh condition. • No discoloration, chips, or scratches visible at any distance. Cleaned and polished.
A	• Equipment not used on slopes; no wear on sole and edges. • No obvious discoloration, chips or scratches. Cleaned and polished.
B	• Well maintained; enough sole and edge left for seasons. • No obvious scratches from less than 0.5m. Cleaned and polished.
C	• Scratches and snags present, no impact on performance. • Bindings may show visible wear. Cleaned and polished.

Sports Condition Guide

Grading Overview

E-Scooters

AA

- Essentially unused condition. No scratches or defects on the frame, visible at any distance.
 - Battery capacity 95% or higher.
 - Works like new. Cleaned. Fulfills all legal requirements.
-

A

- Not more than light scratches on the frame. No defects visible from 1m away.
 - Battery capacity 80% or higher.
 - Works like new. Cleaned. Fulfills all legal requirements.
-

B

- Visible scratches on the frame. No defects visible from 2m away.
 - Wear minimized by good maintenance.
 - Works like new. Cleaned. Fulfills all legal requirements.
-

C

- Clearly visible scratches on the frame.
 - Wear minimized by good maintenance.
 - Works like new. Cleaned. Fulfills all legal requirements
-

Sports Condition Guide

Grading Overview

Golf

AA	• Essentially unused condition. No optical defects of any kind on surface, shaft, or club head, even at close distance. • Works like new. Cleaned and polished.
A	• No immediately visible optical defects. Surface, shaft, and club head in excellent condition. • Works like new. Cleaned. Fulfills all legal requirements.
B	• Some slight visible optical defects. May have minor paint chips or small cosmetic scratches. • No impact on performance. Works like new. Cleaned and polished.
C	• Larger scratches and paint chips may be present, with no effect on performance or playability. • Works like new. Cleaned and polished.

Sports Condition Guide

Grading Overview

Racket Sports

AA

- Essentially unused condition. No wear or paint defects of any kind. Unused stringing. Unused grip.
 - Works like new. Cleaned and polished.
-

A

- Minimal wear, minor paint defects. Newly strung. New grip.
 - Works like new. Cleaned.
-

B

- Minor cosmetic wear. Grip and strings in good condition.
 - Works like new. Cleaned
-

C

- Clear wear from use. Grip lightly used.
 - Works like new. Cleaned.
-

Sports Condition Guide

Grading Overview

Outdoor tents, sleeping bags, and general outdoor accessories (e.g., backpacks, camping gear)

AA

- Essentially unused condition. No visible wear, staining, or odor. Fabric, seams, zippers, poles, and closures show no signs of use whatsoever.
 - All functional elements (zippers, poles, valves, straps, buckles) work as new. Fully functional with no defects. Cleaned.
-

A

- Light signs of use only. No more than minimal surface wear or light staining. No defects visible from 1m away.
 - All functional elements (zippers, poles, valves, straps, buckles) fully functional with minimal wear. Cleaned.
-

B

- Visible signs of use, including surface wear or minor staining. No defects visible from 2m away.
 - All functional elements operate correctly, with minor wear that does not affect performance. Cleaned.
-

C

- Clearly visible wear, staining, or cosmetic defects. No impact on core functionality.
 - All functional elements (zippers, poles, valves, straps, buckles) usable, may show signs of wear. Cleaned.
-

Sports Condition Guide

Grading Overview

Water Sports - kayaks, SUP boards, and related general equipment (e.g., paddles, pumps, leashes, fins)

AA

- Essentially unused condition. Hull, board surface, and fittings show no scratches, dents, or discoloration of any kind, visible at any distance.
 - Fins, valves, straps, and other unused and fully functional fittings. Works like new. Cleaned.
-

A

- Not more than light scratches on the hull or board surface. No defects visible from 1m away.
 - Fins, valves, straps, and other fittings fully functional with no more than light wear. Works like new. Cleaned.
-

B

- Visible scratches on the hull or board surface. No defects visible from 2m away.
 - Wear and corrosion minimized by good maintenance. Fins, valves, and straps functional. Works like new. Cleaned.
-

C

- Clearly visible scratches on the hull or board surface.
 - Fins, valves, and straps functional, may show signs of wear. Works like new. Cleaned.
-
